

GLOBAL PRODUCT STEWARDSHIP COUNCIL

The Global Product Stewardship Council is an independent, non-profit incorporated association dedicated to understanding and advancing the principles of product stewardship

Product stewardship is an environmental management strategy guided by the principle that whoever designs, produces, sells or uses a product takes responsibility for minimising that product's environmental impact.

JOIN A GLOBAL NETWORK OF THOSE IN THE KNOW

Global Product Stewardship Council Functions

- > an independent forum for product stewardship development
- > web-based clearinghouse for the dissemination of information and research
- > international linkages to advance product stewardship
- > research on product stewardship policies and programs.

Who should consider becoming a Global Product Stewardship Council member...

- > thought leaders on product stewardship and producer responsibility
- > brand owners interested in demonstrating commitment to product stewardship
- > governments wanting global perspectives and advice in structuring policies
- > those seeking independent, objective advice and information on programs and policies
- > non-profit producer responsibility organisations
- > community and environment groups.

Activities

- > grown membership to span eleven countries and include other non-profits, businesses of all sizes and governments at national, state/provincial and local levels
- > provided the Council's perspective through presentations in Europe, Canada, US, Australia, New Zealand and China
- > research, stakeholder engagement and facilitation of product stewardship programs for paint and batteries
- > appointments to Government advisory bodies on Australia's development of product stewardship framework legislation and designation of priority products
- > provided Senate testimony on Australia's framework legislation
- > assisted briefings for the (US) National Caucus of Environmental Legislators
- > study tours of electronics recycling operations in China, Hong Kong and Singapore
- > research and member briefings on developments in packaging, electronics and other products
- > study tour of battery and packaging producer responsibility programs in Switzerland, France and Belgium
- > North American study tour of recovery operations for electronics, paint, packaging and carpet
- > hosted the International Product Stewardship Summit
- > public policy and business case development for paint and batteries
- > cross-promotion of relevant events in Asia, North America, Australia and New Zealand
- > expanded social media and networking opportunities including:
 - discussions with over 900 members from 44 countries in a public forum on LinkedIn
 - presence through Twitter, Facebook and Youtube.

ACCESS INDEPENDENT, OBJECTIVE INFORMATION ONLINE

Lion is very happy to continue ongoing Sustaining Corporate membership in the Global Product Stewardship Council, which allows us to gain a broader understanding of what others around the world are achieving and be able to improve our product stewardship outcomes to world class. We are strong supporters of collaborative product stewardship solutions that help us achieve best cost environmental outcomes.

David Carter, Group Environment & Business Continuity Director

DHL has seen its membership of the Global Product Stewardship Council beneficial in learning of new geographical markets where product stewardship is being introduced as well as what product groups are being considered within existing markets. This knowledge allows us to develop market leading solutions for our customers.

Peter Bruce, Senior Director EnviroSolutions

CREATE CAPACITY TO LEAD ON PRODUCT STEWARDSHIP
