EPR & PRODUCT STEWARDSHIP AROUND THE WORLD

Over the past 20 years, the product stewardship (PS) and extended producer responsibility (EPR) movement has grown steadily worldwide, with **400 programs** identified by OECD. The Paris forum follows the inaugural forum in Sydney, staged April 2018 in support of the Australian Government's review of the PS Act. It will provide a unique opportunity for participants to examine the EU's Circular Economy Package objectives challenges and opportunities.
